STEPS

Remove background uses the AI (about 30 s per image, cached). Everything else takes about 2 s.

- [x] 1. Remove background
- [x] 2. Clean up
- [x] 3. New background
- [x] 4. Resize / frame
- [x] 5. Convert / compress

BACKGROUND

STYLE

- (•) Studio grey
- ( ) Light grey
- ( ) White
- ( ) Transparent
- ( ) Custom colour

CUSTOM COLOUR

- [x] Soft shadow under the product

SHADOW STRENGTH 1

0 — 2

SIZE & FRAMING

SHAPE

- (•) Square
- ( ) Original shape

OUTPUT SIZE (PX, LONG SIDE) 2048

PRODUCT SIZE (% OF THE FRAME) 84

50 — 100

MAXIMUM ENLARGEMENT

Limits how much small products are blown up (avoids blur). 2.5

1 — 4

- [x] Keep cut-off cables at the frame edge (close-up shots)

FORMAT & QUALITY

FORMAT

WebP is best for Shopify. AVIF is ~25% smaller. PNG keeps transparency losslessly.

- (•) WebP
- ( ) AVIF
- ( ) JPG
- ( ) PNG

QUALITY 85

1 — 100

SHOW THE CUT-OUT

- On the background
- On a checkerboard

Choose an image to touch up.

How to use

1. Pick the **red** brush and paint over what should go (e.g. a reflection).
2. Pick the **green** brush and paint over parts of the product that are missing.
3. Click **Apply**. The cut-out is updated and the final image is re-made (about 2 s).

Use the editor's eraser or undo to fix a stroke before applying. Zoom with the mouse wheel for small details.

PAINT: RED = ERASE · GREEN = RESTORE
